- Find the grouping of **20 numbers** in which you have circled the most numbers, this is probably your Enneagram number.
- If you have more than one grouping with the same or very close numbers, go back and review the questions and ask yourself "How do I relate with people that are important to me?" and see if you still agree.
- If it remains the same, more research and/or reading of Enneagram books will help you decide. Some recommended books are listed below. The high-lited ones are recommended for beginners the **bolded** ones are the classics.
